

## Experienced UAV Pilot

An exciting opportunity, to join a leading provider of geographic data acquisition, industrial inspections, and high-end aerial imagery, using unmanned aircrafts (UAVs).

This opportunity is to join Skeye. Our business is rapidly expanding in one of the most exciting and technically challenging areas of aerospace: unmanned aviation.

Skeye is an Equal Opportunities Employer. Skeye is also committed to being a living wage employer.

For our office in the UK, we are now hiring an experienced UAV Pilot to support the growth of Skeye.

This exciting role will place the right candidate at the forefront of unmanned air systems in Europe. A role that will suit someone who is willing to travel and work away from home.

The right candidate will be able to work in a team and under their own initiative. They must be motivated, be able complete tasks in a timely manner and have excellent communication skills in English.

The UAV Pilot should possess the following competences and capabilities:

- All required licenses to operate multirotor UAVs
- Preferably, a background in inspection
- Preferably, experience in an offshore environment
- Full driving license

Opportunity for more training will be available with this growing business
