Chapter 1 Introduction

This document outlines the classification codes used in:

- version 1.3 of the AddressBase technical specifications
- version 1.3 of the AddressBase Plus technical specifications
- version 1.3 of the AddressBase Premium technical specifications

Classifications are sourced from the Local Land and Property Gazetteers and from Ordnance Survey large-scale data.

The following chapters show the classification of address objects that are in the AddressBase products identifying the highest level for AddressBase – residential and commercial and four levels in the AddressBase Plus and AddressBase Premium products.

These can be as high-level as commercial property or as detailed as a youth hostel.

Example of a detailed classification

This is an example of a how a classification can be structured in AddressBase Plus and Premium:

| | | | | | | | | |
